

BRIDGE BANK

INTRODUCING:

SMART DEPOSIT EXPRESS

Bridge Bank business clients can now make deposits directly from the convenience of their own office!

Consistent with Bridge Bank's philosophy of using state of the art technology to simplify business banking, clients are able to use a scanner (pictured below) to capture images of a check for deposit. A broadband internet connection electronically transmits the images for deposit directly to the Bank.

- **Save employee time! No more trips to the Bank.**
- **Get online access to archived images of deposits checks.**
- **Key in extra information and download to your A/R system!**

Key Service Features

- Connect via broadband internet access using a password secured web site.
- Dual control feature permits separation of deposit entry and approval.
- Deposit domestic checks within established limits.
- Ability to key in additional data and export reports for interface with A/R systems.
- Built-in image quality assessment.
- Audit reports available.
- System prevents submission of duplicate items.
- System access and telephone support available from 4 a.m. to 10 p.m., Pacific Time at (877) 568-2849.

Service Requirements

- An approved document scanner
- PC with a USB 2.0 port
- High speed internet connection (128K or higher)
- Clients are responsible for secure retention of original checks for 30 days, then to destroy them.

Highly technological, designed to recognize codelines, captures front and rear images, and prints customized endorsement information with outstanding performances. With a small footprint, sleek design, and quiet operation, the Bridge Bank Smart Deposit Express service fits perfectly in small areas.
