

BRIDGE BANK

SMART DEPOSIT EXPRESS – REMOTE DEPOSIT CAPTURE

Bridge Bank business clients can now make deposits directly from the convenience of their own office!

Consistent with Bridge Bank's philosophy of using state of the art technology to simplify business banking, clients are able to use a scanner (pictured below) to capture images of a check for deposit. A broadband internet connection electronically transmits the images for deposit directly to the Bank.

- **Save employee time! No more trips to the Bank.**
- **Get online access to archived images of deposits checks.**
- **Key in extra information and download to your A/R system!**

Service Requirements

- An approved document scanner
- PC with a USB 2.0 port
- High speed internet connection (128K or higher)
- Clients are responsible for temporary secure retention of original checks, then to destroy them.

Key Service Features

- Connect via broadband internet access using a password secured web site.
- Dual control feature permits separation of deposit entry and approval.
- Deposit domestic checks within established limits.
- Ability to key in additional data and export reports for interface with A/R systems.
- Built-in image quality assessment.
- Audit reports available.
- System prevents submission of duplicate items.

Scanner Options

Choose from a range of bank provided scanners, or provide your own scanner from our approved list.
